

item number	diameter - D (mm)	length - L (mm)	drilling depth (mm)	screw diameter (mm)	package bag/carton (pcs)
HL 6_XX	6	34	40	3,5-4	100/10000
HL 8_XX	8	48	55	4-5	100/4000
HL 10_XX	10	59	65	5-6	100/2400

material: polyethylen

halogen-free: yes

temperature resistance: -30 - +70 °C

storage: ČSN 64 0090

product description: Designed for light anchoring – fixing of non-structural building components and building equipment to hollow walls and ceilings

installation instructions: drill a hole, the drill bit has the same diameter as the diameter of the dowel, hole depth is at least the length of the dowel
 dowel is inserted into a drilled hole
 install the screw into the dowel, the dowel is extended and anchored to the wall, the diameter of the screw is shown in the table
 the length of the screw is the same as the dowel length plus the thickness of the fastened object
